Overview

The scope of this document is to provide the release notes of Piclet API, with respect to a particular release version. It also includes the issues reported, open and solved within this release.

Known issues

- No known issues.

Added functionality.

The list of new features are:

- We changed the behaviour of the service for no content requests. Instead of returning a `404 Not Found` we are now returning a `204 No Content`. The list of requests affected by this change is:

  - search by addres `/search?searchtext=...`
  - search by coordinates `/piclet?clat=...&clon=...`
  - search by building id `/raw/...`
  - checking if an image exists `/piclet?noimg....`

Resolved Issues

The following issues have been resolved in this release:

Issue ID	Description
92	We fixed an internal server error when building requests for raw endpoint.

Signature changes

- We changed the response from `404 Not Found` to `204 No Content` for non existing piclets.
