## Batch Geocoder API Release Notes Overview

Chapter 1

#### **Overview**

**Topics:** 

Batch Geocoder API Highlights

The scope of this document is to provide the release notes of Batch Geocoder API, with respect to a particular release version. It also includes the issues reported, open and solved within this release.

#### **Batch Geocoder API Highlights**

This release is tested against and runs with the latest Geocoder version. The respective Geocoder version can be found in the report output file of a Batch Geocoder run.

Changes in this Batch Geocoder API release are improvements to the internal logging and monitoring functionality.

#### **Batch Geocoder API Release Notes**

Release Major Changes

# Chapter **2**

# **Release Major Changes**

**Topics:** 

• API Changes

This section documents major changes to the release that may require users to change their applications and/or associated map data.

#### 7

There are no API changes in this release.

## Batch Geocoder API Release Notes D66 Issues

# Chapter **3**

## **D66** Issues

#### **Topics:**

- Resolved Issues and Enhancements
- Known Issues

This section lists resolved issues and enhancements in the current release. It also lists known issues in the current release.

#### **Resolved Issues and Enhancements**

The following table contains resolved issues and enhancements. The list summarizes major resolved issues relevant for a broad audience.

#	Description
1	Subdistrict match quality is now available in results.
	Subdistrict match quality can now be requested for results with field matchQualitySubDistrict.
	<b>Usage:</b> Add matchQualitySubDistrict anywhere to the outCols list:
	<pre>&amp;outCols=recId,country,locationLabel,matchLevel,, matchQualityDistrict,matchQualitySubDistrict, latitude,longitude,</pre>
	Recently, the subdistrict name was added to Geocoder and Batch Geocoder results. This name is commonly used with addressing in India. From D66 onwards, we use the subdistrict name where applicable.

#### **Known Issues**

There are no known issues for this release. For known issues in the Geocoder backend software, see the respective release notes.
