Chapter 1

Overview

Topics:

- [Highlights](#)

The scope of this document is to provide the release notes for the Venue Maps API for a particular release version. It lists added and improved functionality as well as the issues resolved and known issues remaining in this release.

Highlights

The following highlights give a short summary of the most important changes, added functionality and improvements:

- We increased the number of venues; new count: 14276

Chapter 2

Changes

Topics:

- [Functional and Behavioral ...](#)
- [API Changes](#)
- [Resolved Issues](#)
- [Known Issues](#)
- [Limitations and Workaround...](#)

This section documents major changes to the release that may require the updating of affected applications and/or associated map data.

📖 **Note:** For changes made in previous releases, see the related documents at <http://developer.here.com>

Functional and Behavioral Changes

The following table contains descriptions of added or changed functionality and changes in product behavior.

Table 1: Functional and Behavioral Changes

#	Description
1	The number of venues has increased; new venue count: 14276 For more details on the newly added venues, see the Venue Maps Coverage section in the Developer's Guide.

API Changes

Added

- None.

Removed

- None.

Resolved Issues

There are no resolved issues in this release.

Known Issues

The following list contains issues known to be present in the current release of the Venue Maps API.

- When displaying tiles on top of the HERE Maps canvas, venue maps content may partially overlap map elements like roads and water features. This is a known source data issue.
- We may remove undocumented attributes in JSON content at any time without prior notice.

Limitations and Workarounds

There are no limitations and workarounds in this release.
