# Chapter 1

## Overview

---

### Topics:

- [Map Data Version](#)
- [Highlights](#)

This document provides a summary of important changes for this version. Apart from newly resolved issues and added or improved functionality, this document also includes information about known issues remaining in this release as well as any existing limitations and workarounds.

## Map Data Version

---

The Geocoder Autocomplete API provides weekly map data updates. Weekly map data updates are based on 2017Q4 data releases for most countries.

The following exceptions exist for countries with HERE map content coverage:

- Hong Kong and Macau are from 2017Q3 and are not updated on a weekly basis.

Entry or Intermediate map content coverage are not listed here.

## Highlights

---

Changes to this release are all related to map data. No functional changes or other improvements are added.

## Chapter 2

# Changes

---

### Topics:

- [Functional and Behavioral ...](#)
- [API Changes](#)
- [Resolved Issues](#)
- [Known Issues](#)
- [Limitations and Workaround...](#)

This section documents major changes to the release that may require you to update your applications and/or associated map data.

## Functional and Behavioral Changes

---

There are no added or changed functionalities, or changes in product behavior, in this release.

## API Changes

---

### Added

- None

### Changed

- None

### Removed

- None

## Resolved Issues

---

Autocomplete returned Taiwan as a province of the People's Republic of China for all Taiwan queries. This has been corrected to now show the country Taiwan.

## Known Issues

---

There are no known unresolved issues in this release.

## Limitations and Workarounds

---

There are no limitations and workarounds in this release.
