API Changes

Added

• None

Changed

• None

Removed

• None

Deprecated

Deprecation Date	Description
May 2016	Browse Pt-Stops Entrypoint is deprecated To search for nearby stations by geocoordinates, please use the HERE Public Transit API. See , see the *Quick Start* section in the Public Transit API Developer's Guide.
March 2017	The lookahead parameter is deprecated in favor of the Autosuggest endpoint
March 2017	The browse-by-corridor/short endpoint is deprecated

Resolved Issues

The following table summarizes major issues resolved in Places (Search) API.

Table 1: Resolved Issues

#	Issue
1	The query 'starbucks in LA' from Las Vegas returns Starbucks in Las Vegas. The expected result is a list of Starbucks in Los Angeles.
2	Searching for "gas station" from Brisbane/CN shows charging stations
3	Wrong position for Chipotle and Shoprite POIs in Paramus/NJ
4	Inappropriate suffix "Tesla" attached to hotels
5	Incorrect alternate name for National Museum of American History
6	Searching for "Domino's Pizza" from Sunnyvale, CA returned far away places rather than closer places.

#	Issue
7	World Oil place has an incorrect Exxon chain
8	Westin Lake Mary place is duplicated
9	Hampton Inn place names in Detroit are not complete
10	Some Busch's Fresh Food places have an incorrect pharmacy category
11	Roßfeld Panorama Straße is wrongky named as Roßfeld Panora Straße
12	Search for "eye glasses" from Kansas City returns "Premier Plastic Surgery of Kansas City
13	Places in some small towns in Massachusetts have their city field with a "Town of" prefix
14	London sea life aquarium has wrong position and category
15	Chicago Ameriprise Financial place has wrong gas station category

For issues resolved in previous releases, see the relevant chapters in these documents: *http:// developer.here.com/documentation/versions#places*

Known Issues

The following table lists issues known to be present in the current release of the Places (Search) API.

Table 2: Known Issues

#	Issue
1	Duplicate POIs are observed in a few Countries
2	POI Overmatches are observed in a few countries
3	Train Stations are duplicated in a few cities across Europe
4	Category regressions are observed in a few countries
5	Regression in vietnamese, sandwich, French Cuisine Type categories

Limitations and Workarounds

There are no known limitations or workarounds in this release.
