Chapter 1

Overview

Topics:

- [Map Data Version](#)
- [Highlights](#)

This document provides a summary of important changes for this version. Apart from newly resolved issues and added or improved functionality, this document also includes information about known issues remaining in this release as well as any existing limitations and workarounds.

Map Data Version

This version of Routing API supports the map data version 8.30.84.157. This map reflects data that is current as of 2018Q2 and contains the latest high priority updates, with the following exceptions:

- China map data is 2015Q4
- Iran map data is 2015Q1

Highlights

The following highlights give a short summary of the most important changes, added functionality and improvements:

- Added support for balanced mode in truck routing.
- Introduced the fast speed profile feature for trucks.
- Fixed a FRC issue on ferry links.
- Added environmental zones to supported zone types.
- Introduced a new resource for querying supported routing zones.

Chapter 2

Changes

Topics:

- [Functional and Behavioral ...](#)
- [API Changes](#)
- [Resolved Issues](#)
- [Known Issues](#)
- [Limitations and Workaround...](#)

This section documents major changes to the release that may require the updating of affected applications.

Note: For changes made in previous releases, see the related documents at <http://developer.here.com>.

Functional and Behavioral Changes

The following table contains descriptions of added or changed functionality and changes in product behavior.

Table 1: Functional and Behavioral Changes

#	Description
1	We added support for balanced mode in truck routing.
2	We introduced the fast speed profile feature for trucks. This profile can be used for computing routes and estimated travel times for trucks which can travel at speeds greater than the one specified in the default profile.
3	We fixed a FRC issue on ferry links. Router provides now correct FRC on ferry links.
4	We added environmental zones to supported zone types.
5	We introduced a new resource for querying supported routing zones.

API Changes

Added

- Option `balanced` added to route types in mode parameter.
- Parameter `speedProfile` added to `calculateroute`, `calculatematrix` and `calculateisoline` resources.
- Option `environmental` added to zone types enumeration used in Zone element of Route.
- Resource `getroutingzones` added.

Changed

- None.

Removed

- None.

For more information, see <https://developer.here.com/rest-apis/documentation/routing/topics/api-reference.html>.

Resolved Issues

The following table summarizes major issues resolved in Routing API.

Table 2: Resolved Issues

#	Issue
1	Router provides incorrect FRC on ferry links.
2	Over estimating truck travel times.
3	General bug fixes and improvements

Known Issues

There are no known unresolved issues in this release.

Limitations and Workarounds

There are no limitations and workarounds in this release.
