Chapter 1

Overview

Topics:

- [Map Data Version](#)
- [Highlights](#)

This document provides a summary of important changes for this version. Apart from newly resolved issues and added or improved functionality, this document also includes information about known issues remaining in this release as well as any existing limitations and workarounds.

Map Data Version

This version of Routing API supports the map data version 8.30.95.155. This map reflects data that is current as of 2019Q2 and contains the latest high priority updates, with the following exceptions:

- China map data is 2015Q4
- Iran map data is 2015Q1

Highlights

The following highlights give a short summary of the most important changes, added functionality and improvements:

- Fixed the issue of relaxing truck turn restrictions at junctions where a road divider does not span on the junction.
- Added response attributes for zone access regulations based on a scheme of vehicle's license plate number.

Chapter 2 Changes

Topics:

- [Functional and Behavioral ...](#)
- [API Changes](#)
- [Resolved Issues](#)
- [Known Issues](#)
- [Limitations and Workaround...](#)

This section documents major changes to the release that may require the updating of affected applications.

📄 **Note:** For changes made in previous releases, see the related documents at <http://developer.here.com>.

Functional and Behavioral Changes

The following table contains descriptions of added or changed functionality and changes in product behavior.

Table 1: Functional and Behavioral Changes

#	Description
1	We have fixed the issue of relaxing truck turn restrictions at junctions where a road divider does not span on the junction. Now the route computation with relaxed truck restriction penalty does not fail if it needs to violate a truck-restricted turn at such junctions if this turn is permitted for cars.
2	We added response attributes for zone access regulations based on a scheme of vehicle's license plate number. Now the <code>RoutingZoneType</code> elements may provide details on such regulations in case of zones where they are applicable and where relevant data is available.

API Changes

Added

- Attribute `Restriction` added to `RoutingZoneType`.

Changed

- None.

Removed

- None.

For more information, see <https://developer.here.com/rest-apis/documentation/routing/topics/api-reference.html>.

Resolved Issues

The following table summarizes major issues resolved in Routing API.

Table 2: Resolved Issues

#	Issue
1	Truck route to Lethbridge in US fails with no warning despite <code>truckrestrictionpenalty</code> being set to soft.

Known Issues

There are no known unresolved issues in this release.

Limitations and Workarounds

There are no limitations and workarounds in this release.
